

# ARDEX P 140

## Sticky and Gritty

### Advantages

- Rapid Drying
- Water Resistant
- Fast Drying
- Ready for Use
- Eco-friendly

### Description

ARDEX P 140 Sticky and Gritty is a single-component thick emulsion product, ready to use upon opening, smooth to apply, and environmentally friendly. After the film is fully dried through, it will not detach when immersed in water, providing a stronger and more durable tile-bonding effect.

### Areas of Application

Suitable for indoor tile back-surface interface treatment. Used together with ARDEX X 210 or ARDEX X 240 can achieve better tiling results.

### Substrate Preparation

Ensure the tile back surface is dry and free from loose dust, oil contamination, release agents and other impurities. Application method: no stirring required after opening. Use a roller or brush to pick up the product and apply onto the tile surface. After the film is dry, proceed with subsequent works. Before the film is dry, avoid contact with free water.

### Application

No stirring required after opening. Use a roller or brush to pick up the product and apply onto the tile surface. After the film is dry, proceed with subsequent works. Before the film is dry, avoid contact with free water. Application temperature: 5–35°C; temperature and humidity will affect the actual drying time.

# ARDEX P 140

## Sticky and Gritty

### Consumption

Approx. 150 g/m<sup>2</sup>; actual consumption is related to the flatness and water absorption of the tile back.

### Packaging

7.5kg per pail

### Storage & Shelf Life

Unopened and stored in a cool, dry place, the product has a shelf life of 12 months.

### Technical Data

Color	White
Mixing ratio	No mixing required
Consumption	Approx. 150 g/m <sup>2</sup>
Drying time	Approx. 15–30 minutes @23°C, 50%RH
PH	8-9

### Safety Precautions

Under normal use, this product is non-toxic and harmless. Avoid contact with skin and eyes. If it splashes into the eyes, rinse immediately with plenty of clean water and seek medical attention. Wear appropriate gloves and eye protection during use, and keep out of reach of children. If swallowed without vomiting, rinse mouth with water first, then drink as much water as possible and seek medical attention.
